

COVID-19 Care in the Community Primary Care Funding Algorithm

Care is focussed on people who are at higher risk of more serious COVID-19 and/or with moderate symptoms. Patients at lower risk and with milder symptoms are encouraged to use self-reporting digital tools and self-manage. The algorithm describes a flow of care. however, individual elements can be claimed alone on FFS basis. All amounts on algorithm are GST exclusive. Note POAC claiming document is GST inclusive.

* denotes After Hours rate which is applied from between 8pm and 8am Monday through Thursday.
[^] denotes weekend and public holiday rate, applied from 5pm Friday through to 8am Monday and any public holiday.
A Probable Case is a symptomatic person in the same household as a COVID-19 case

- High needs: Māori, Pacific peoples, living in Q4 and Q5, former refugees or asylum seekers, disability, people ,75 years and older.
- If non-enrolled with GP claim at higher needs rate and subsequent reviews at standard rate ,unless higher needs definition applies.
